Unit - II

2. Read the following passage carefully and answer the questions given below : [5x1=5]

Environment is a very broad term. It includes everything that is around, above and below us. Air, water, plant and

animal life is all included in the environment. The greatest problem of present day world is the pollution of environment, be it water, air, or sound. Pollution literary means fouling the natural environment by some unnatural elements which make it polluted to the extent that it becomes unhealthy for plant and animal life. The worst part of the story is that it is only the man who is responsible for this development and which, if not controlled to a reasonable extent, can lead humanity to extermination and this beautiful creation of God will see its end at its own hands. Natural calamities like earthquakes, cyclones, famines, epidemics, etc. cause great sufferings to human beings. But man's most effective enemy is man himself, because he is himself responsible for polluting the environment in which he lives.

Questions :

(i) What do you understand by environment?

(ii) What is greatest problem of present day world?

(iii) What is the possible danger of uncontrolled pollution?

(iv) What causes great suffering to human beings?

(v) Who is responsible for polluting the natural environment?
