Historical Background

The idea of establishment of University for the development of various sectors of agriculture was under persuasion by the government of Jammu and Kashmir right from early 1970's. But its dream came true with its establishment in the year 1982 and was named after great legendary leader, the Sher-e-Kashmir, Sheikh Mohammad Abdullah as Sher-e-Kashmir University of Agricultural Sciences and Technology with its main campus at Shalimar, Srinagar with a vision to pursue teaching and conduct research and extension services in agriculture and allied sciences directed to food, nutritional and livelihood security. During 1998-99, the territorial jurisdiction of the University was redefined by amending the SKUAST Act under which a separate Agricultural University was established for Jammu Division and accordingly the parent University was renamed as Sher-e-Kashmir University of Agricultural Sciences and Technology of Kashmir (SKUAST-K) with its jurisdiction of following two agro-ecological regions:

- Mid-High Altitude Temperate Zone namely the Kashmir Valley covering ten districts of Anantnag, Budgam, Baramulla, Pulwama, Kupwara, Srinagar, Ganderbal, Kulgam, Bandipora and Shopian. This region experiences an average annual precipitation of 660mm with mean temperature around 13^0C and the altitude ranging between 1500-2500 m amsl.
- Cold-Arid region namely Ladakh, the districts of Leh and Kargil which are cold desert with precipitation only around 90-275mm and altitude above 2000 m amsl.

The agricultural economy in India during the past four decades got transformed inviting attention to mark a shift from subsistence agricultural economy to high-tech agri-business economy by keeping intact the historic and futuristic identity of the ecological regions. Therefore, identifying the nature and pattern of complimentary links within the sub-sectors of agriculture under the complex challenges of climate change, economic shocks, energy security and other uncertainties especially in the Himalayan region demanded specialization and super specialization of Institutions for academic and research excellence in the specific and niche areas. With this in view, the mandate and mission of SKUAST-K, was redefined to become an Institution of Excellence in Mountain and Hill Agriculture.

Mandate

- Imparting education in different branches of study like Agriculture, Horticulture, Veterinary and Animal Sciences, Forestry, Fisheries, Agricultural Engineering, Home Science, Environmental Science, Sericulture and other allied sciences;
- Undertake strategic and applied research in agriculture and other allied sciences with emphasis on temperate and cold arid agriculture;
- Dissemination of such sciences and technologies to the rural and hill farming community through extension services; and
- Such other purposes as the University may form from time to time.

Mission

- University is committed to provide food, nutritional and livelihood security by producing excellent human resource, innovative technologies and their dissemination and become a leading University in Hill and Mountain Agriculture.

Goal

- To produce human resource in Hill Agriculture and allied disciplines that serve the state/country and society at large;
- To develop technologies for solving farmer's problems in agriculture and allied sciences as well as disseminate them;
- To improve productivity, profitability and employability.

PRELUDE

The Sher-e-Kashmir University of Agricultural Sciences & Technology, J&K (SKUAST J&K) was established in operation in August,1982 with its headquarters at Shalimar, Srinagar through Act No.VII of 1982, having jurisdiction throughout the Jammu & Kashmir. However through an amendment in the SKUAST Act, promulgated vide SRO 408 dated 20.9.1999, the SKUAST J&K got bifurcated in two universities, one in the Kashmir Division and the other in Jammu Division each having jurisdiction extending to its respective Division of the territories of J&K. Through this amendment the University in Kashmir Division came to be known as Sher-e-Kashmir University of Agricultural Sciences & Technology of Kashmir (SKUAST-Kashmir) and the University in Jammu Division as Sher-e-Kashmir University of Agricultural Sciences & Technology of Jammu (SKUAST-Jammu).

The SKUAST-Kashmir is a multi-campus University with its headquarters at Shalimar, Srinagar having as many as twenty six (26) research stations and thirteen (13) Krishi Vigyan Kendras (KVKs). The academic programmes of the University are run under Faculty of Horticulture, Shalimar, Srinagar - Faculty of Agriculture, Wadura, Sopore – Faculty of Veterinary Sciences & Animal Husbandry, Shuhama, Ganderbal – Faculty of Fisheries, Rangil, Ganderbal – Faculty of Forestry, Benhama, Ganderbal – College of Temperate Sericulture, Mirgund - College of Agricultural Engineering & Technology, Shalimar, Srinagar. All the UG degree programmes of the University have been duly accredited by National Agricultural Education Accreditation Board (NAEAB) of Indian Council of Agricultural Research (ICAR), New Delhi.

In furtherance of the advancement of learning and prosecution of research in Agriculture, Animal Husbandry and other allied branches with particular emphasis on temperate and cold desert Agriculture, the University is having collaboration in research projects having multi-disciplinary approach and academic programmes with other Universities or reputed institute within and outside the country as well.

In so far as teaching, research and extension education related infrastructural development is concerned, this University is rich in having competent faculty & other technical/supporting manpower, quality infrastructure developed over a period of time and extensive land resources available at all the Subject Matter Faculties/Colleges and Research Stations/KVKs, achieved with the help of Government and other funding agencies like ICAR etc. The University is equipped with state of the art laboratories, class rooms and hostel facilities for both boys and girls separately at all the Campuses.

The University always supports students' learning, development and achievement by providing tools and opportunities for their educational and professional growth in the changing paradigm of technology driven economy. The University is heading forward with big strides to achieve significant excellence specifically in Mountain Agricultural Systems of temperate and cold arid types. In the academic and research arena, it is emerging as a seat of excellent learning and capacity building in agriculture, veterinary sciences and other allied sectors. It represents fulfillment of aspirations of the people in order to provide scientific and technological backup to the major economic sector.

Presently this University has achieved the status of being at Rank No.09, one among top ten (10) Agricultural Universities at national level as per ICAR Agricultural Universities Ranking-2020. By dint of sustainable growth in excellence, this University is striving to register its name among top Five Agricultural Universities in the country in ensuing ranking exercise and we are hopeful in this endeavour.
