Selina Class 8 ICSE Solutions Physics :

Chapter 3- Force and Pressure

Class 8: Physics Chapter 3 solutions. Complete Class 8 Physics Chapter 3 Notes.

Selina Class 8 ICSE Solutions Physics : Chapter 3- Force and Pressure

Selina 8th Physics Chapter 3, Class 8 Physics Chapter 3 solutions

A. Objective Questions

Question 1

Write true or false for each statement

(a) The S.I. unit of force is kgf.

Answer: False.

(b) A force always produces both the linear and turning motions.

Answer: False.

(c) Moment of force = force $\times$ perpendicular distance of force – from the pivoted point.

Answer: True.

(d) Less force is needed when applied at a farther distance from the pivoted point.

Answer: True.

(e) For a given thrust, pressure is more on a surface of large j area.

Answer: False.

<https://www.indcareer.com/schools/selina-class-8-icse-solutions-physics-chapter-3-force-and-pressure/>

(f) The pressure on a surface increases with an increase in the thrust on the surface.

Solution: True.

(g) A man exerts the same pressure on the ground whether he is standing or he is lying.

Answer: False.

(h) It is easier to hammer a blunt nail into a piece of wood than a sharply pointed nail.

Answer: False.

(i) The S.I. unit of pressure is the pascal.

Answer: True.

(j) Water in a lake exerts pressure only at its bottom.

Answer: False.

(k) A liquid exerts pressure in all directions.

Answer: True.

(l) Gases exert pressure in all directions.

Answer: True.

(m) The atmospheric pressure is nearly Pa.

Answer: True.

(n) Higher we go, the greater the air pressure.

Answer: False.

Question 2

Fill in the blanks

(a) $1 \text{ kgf} = 10 \text{ N}$ (nearly)

(b) Moment of force = force $\times$ distance of force from the point of turning

<https://www.indcareer.com/schools/selina-class-8-icse-solutions-physics-chapter-3-force-and-pressure/>

- (c) In a door, handle is provided farthest from the hinges.
- (d) The unit of thrust is newton.
- (e) Thrust is the normal force acting on a surface.
- (f) Pressure is the thrust acting on a surface of unit area.
- (g) The unit of pressure is the pascal
- (h) Pressure is reduced if the area of surface increases.
- (i) Pressure in a liquid increases with the depth.
- (j) The atmospheric pressure on the earth's surface is nearly 10^5 Pa .

Question 3

Match the following:

Column A

- (a) Camel
- (b) Truck
- (c) Knife
- (d) High building
- (e) Thrust
- (f) Moment of force
- (g) Atmospheric pressure

Column B

- (i) broad and deep foundation
- (ii) broad feet
- (iii) six or eight tyres
- (iv) sharp cutting edge
- (v) atm
- (vi) N
- (vii) N m

Solution:

Column A

- (a) Camel
- (b) Truck

Column B

- (ii) broad feet
- (iii) six or eight tyres

<https://www.indcareer.com/schools/selina-class-8-icse-solutions-physics-chapter-3-force-and-pressure/>

- | | |
|--------------------------|-------------------------------|
| (c) Knife | (iv) sharp cutting edge |
| (d) High building | (i) broad and deep foundation |
| (e) Thrust | (vi) N |
| (f) Moment of force | (vii) N m |
| (g) Atmospheric pressure | (v) atm |

Question 4

Select the correct alternative:

(a) SI. unit of moment of force is

1. N
2. N cm
3. kgfm
4. N m

Solution: The correct answer is 4. N m

(b) To obtain a given moment of force for turning a body, the force needed can be decreased by

1. applying the force at the pivoted point
2. applying the force very close to the pivoted point
3. applying the force farthest from the pivoted point
4. none of the above

Solution: The correct answer is 3. applying the force farthest from the pivoted point

(c) The unit of thrust is

1. kgf
2. kg

<https://www.indcareer.com/schools/selina-class-8-icse-solutions-physics-chapter-3-force-and-pressure/>

3. g

4. ms^{-1}

Solution: The correct answer is 1. kgf

(d) The unit of pressure is

1. $\text{N}\times\text{m}$

2. kgf

3. N

4. kgf

Solution: The correct answer is 3. N

(e) The pressure and thrust are related as

1. Pressure = Thrust

2. Pressure = Thrust $\times$ Area

3. Pressure = Thrust/Area

4. Pressure = Area/Thrust

Solution: The correct answer is 3. Pressure = Thrust/Area

(f) A body weighing 5 kgf, placed on a surface of area 0.1 m^2 exerts a thrust on the surface equal to

1. 50 kgf

2. 5 kgf

3. 50 kgf

4. 5 kgf

Solution: The correct answer is 3. 50 kgf

(g) The feet of lizards act like

<https://www.indcareer.com/schools/selina-class-8-icse-solutions-physics-chapter-3-force-and-pressure/>

1. moving pads
2. drilling pads
3. suction pads
4. none of the above

Solution: The correct answer is 3. suction pads

(h) The pressure exerted by a liquid is due to its

1. weight
2. mass
3. volume
4. area

Solution: The correct answer is 1. weight

(i) Pressure inside a liquid increases with:

1. increase in depth
2. decrease in depth
3. decrease in density
4. none of the above

Solution: The correct answer is 1. increase in depth

(j) The atmospheric pressure at sea level is nearly

1. 10 Pa
2. 100,000 Pa
3. 100 Pa
4. 10,000 Pa

<https://www.indcareer.com/schools/selina-class-8-icse-solutions-physics-chapter-3-force-and-pressure/>

Solution: The correct answer is 2. 100,000 Pa

(k) Nose bleeding may occur at a high altitude because

1. the atmospheric pressure decreases
2. the oxygen content of the atmosphere decreases
3. the atmospheric pressure increases
4. there are strong air currents at the high altitude

Solution: The correct answer is 1. the atmospheric pressure decreases

Selina Publishers ICSE Solutions

Class 8 Physics

- Chapter 1- Matter
- Chapter 2- Physical Quantities and Measurement
- Chapter 3- Force and Pressure
- Chapter 4- Energy
- Chapter 5- Light Energy
- Chapter 6- Heat Transfer
- Chapter 7- Sound
- Chapter 8- Electricity

About About Selina Publishers ICSE

Selina Publishers has been serving the students since 1976 and is one of the quality ICSE school textbooks publication houses. Mathematics and Science books for classes 6-10 form the core of our business, apart from certain English and Hindi literature as well as a few primary books. All these books are based upon the syllabus published by the Council for the I.C.S.E. Examinations, New Delhi. The textbooks are composed by a panel of subject experts and vetted by teachers practising in ICSE schools all over the country. Continuous efforts are made in complying with the standards and ensuring lucidity and clarity in content, which makes them stand tall in the industry.
