

- 1 What are the benefits of internet?
(A) Online sources provide up-to-date information as well as up-to-date information.
(B) It provides a wide range of information.
(C) Some sites provide references. This helps the researcher.
(D) All the above statements are true.
- 2 What is NICNET?
(A) is a Satellite based Government Informatics Network. (B) is a Satellite based Private Informatics Network.
(C) is a Satellite based Personal Informatics Network. (D) is a Satellite based Social Informatics Network.
- 3 What is the full form of NRDMS?
(A) The National Resources Day Management System (B) The National Resources Data Management System
(C) The National Resources Data Management System (D) The International Resources Data Management System
- 4 Where is the office of INFLIBNET located in Gujarat?
(A) On the campus of Saurashtra University (B) On the campus of Gujarat University
(C) In the campus of Gujarat University (D) In the campus of VallabhVidyanagar
- 5 In which year did UGC undertake an ambitious program of Information and Library Network?
(A) 1990 (B) 1992 (C) 1991 (D) 1993
- 6 What is the full name of ERIC?
(A) Educational Resource Information Center (B) Educational Resource Informative Center
(C) Educational Resource Information Cell (D) Educational Resource Informative Cell
- 7 Which of the following search engine addresses is correct?
(A) www.google.com (B) www.yahoo.com (C) www.altavista.com (D) All the above statements are true
- 8 What is the full name of SPSS?
(A) Statistical package of the social science (B) Statistical package for the Social Science
(C) Statistical package for the social service (D) Statistical package of the social service
- 9 What is the full form of PPT?
(A) PowerPoint Presentation (B) PowerPin Presentation
(C) PowerPoint Present (D) PowerPaint Presentation
- 10 What are the things that the reader of a research report is curious to know?
(A) What is the research on? (B) How is the research done?
(C) What was discovered at the end of the research? (D) All the above statements are true.
- 11 In what type of research is data analyzed using statistics?
(A) Numerical research (B) Qualitative research
(C) Only statement A is true. (D) All the above statements are false.
- 12 What is numerical research called in English?
(A) Quantitative Research (B) Qualitative Research (C) Applied Research (D) Basic Research
- 13 Which of the following is true in the maintenance of information?
(A) Editing (B) Symbolism (C) Only A is true. (D) Statements A and B are both true.
- 14 What is symbolism?
(A) The process of indicating or numbering the respondent's responses or responses.
(B) There is no process of marking the informant's responses or responses.
(C) is simply a process of numbering the respondent's responses or answers.
(D) All the above statements are true.
- 15 Which of the following is true for classification rules?
(A) Classes should be given only in relation to the objectives of the research problem.
(B) Each member of the universe should be classified in such a way that it can be arranged in a single section.
(C) Each variable should be classified separately. (D) All the above statements are true.
- 16 Why is statistics used?
(A) To analyze information (B) To study only
(C) The use of statistics in research is not necessary. (D) All the above statements are true.
- 17 What is descriptive statistics in English?
(A) Inferential Statistics (B) Discriptive Statistics (C) Discriptive Analysis (D) None of the Above
- 18 The information collected for research
(A) are simply presented. (B) The analysis is done.
(C) Statements A and B are true. (D) Only statement A is true.
- 19 State the full name of APA.
(A) American Psychological Associate (B) American Psychological Association
(C) American Psychologic Association (D) American Psychologian Association
- 20 What are the two main functions of statistics in research?
(A) to describe (B) Interpreting in terms of making a decision or making a guess
(C) Only A is true. (D) Statements A and B are both true.
- 21 What does the analysis of information in qualitative research depend on?
(A) Inductive approach (B) Corporate approach (C) Statistical approach (D) All the above statements are true.
- 22 Which of the following forms of variance analysis is true?
(A) One-way variance analysis (B) Two-way scattering analysis
(C) (A) and (B) are both true. (D) All the above statements are false.
- 23 The use of variance analysis checks the significance of the differences between the averages of how many groups.
(A) Two or more groups (B) Less than two groups (C) Only one group (D) Only two groups
- 24 Which of the requirements for diffraction analysis is true?
(A) The sample must have been selected by accident.
(B) The measurement variable under measurement should not be symmetrically extended across the globe.
(C) Information about the variable should not be in the interval measurement system.
(D) Groups that are not compared should be independent.

- 25 What is the meaning of class?
(A) X2 (B) X (C) X2 (D) X3
- 26 Which of the prerequisites of Kyivarg test is true?
(A) The sample should be randomly selected.
(B) If the number of samples is two or more then these samples should be independent.
(C) (A) and (B) are both true.
(D) All the above statements are false.
- 27 What is the meaning of Pearson factor multiplication correlation?
(A) z (B) r (C) x (D) y
- 28 Which of the main sections of the research report is true?
(A) Introductory section (B) Procedure Section (C) Results section (D) All the above statements are true.
- 29 What kind of information is presented in the research report.
(A) Preliminary information (B) Key information
(C) Support or reference information (D) All the above statements are true.
- 30 In what form can literature be reviewed?
(A) Analytical (B) Cohesive (C) Metaphysics (D) All the above statements are true.
- 31 Which works are included in the literature review?
(A) To prepare summaries of related studies (B) Prepare a review note from the summary.
(C) Only statement A is true. (D) Statements A and B are both true.
- 32 Which of the following is true regarding the outline of the literature review chapter?
(A) Introductory (B) A review of the theoretical literature
(C) Summary of previous research (D) All the above statements are true.
- 33 What is the specialty of semantic statistics?
(A) Parameters cannot be inferred from statistics. (B) Parameters can be inferred from statistics.
(C) Only statement A is true. (D) Only statement B is true.
- 34 What is semantic statistics called in English?
(A) Inferential Statistics (B) Discriptive Statistics
(C) Sampling Statistics (D) Null Statistics
- 35 What is the result of research?
(A) Analysis and interpretation of information (B) Conclusion from the interpretation of information
(C) Extraction of the result from the test of hypothesis (D) None of the above
- 36 What is the name of the error of type-1?
(A) Alpha error (B) Beta error (C) Statements A and B are both true. (D) Only A is true
- 37 Which of the following skills should a researcher have for literature review?
(A) Reading skills (B) Notation writing skills (C) (A) and (B) are both true. (D) None of the above
- 38 What works are carried out for the review of reference literature.
(A) Problem determination for review (B) Integration of relevant references
(C) Evaluation of received references (D) All the above statements are true.
- 39 What is the error of type-1?
(A) To reject zero assumption even if it is true (B) To accept the zero assumption even though it is wrong
(C) Statement A is incorrect. (D) Statement B is true.
- 40 What kind of mistakes in research are found in serious human beings.
(A) Type-1 errors (B) Type-2 errors
(C) Both Type-1 errors and Type-2 errors (D) All the above statements are false.
- 41 According to research experts, what to do reduces the chances of making type-1 errors and type-2 errors.
(A) Keep the sample size large (B) Keep the sample size small
(C) Keeping the size of the universe small (D) Large world size
- 42 By what name are the ends of the equator known?
(A) Expansion tail (B) Expansion (C) Line of extension (D) Expansion point
- 43 What is a double ask test?
(A) A test used to test a zero hypothesis that specifies the direction of the expected difference
(B) A test used to test a zero hypothesis that does not specify the direction of the expected difference
(C) Information used to test a zero hypothesis that does not specify the direction of the expected difference
(D) Information used to test a zero hypothesis specifying the direction of the expected difference
- 44 T What kind of test is it?
(A) Preliminary test (B) Appraisal test (C) Only statement A is true. (D) Only statement B is true.
- 45 What other names are used for non-traditional tests?
(A) Expansion tests (B) Expansion free tests
(C) Only statement A is true. (D) Only statement B is true.
- 46 The test of honor is the test of which department.
(A) Territorial section test (B) Appraisal test
(C) Only statement A is true. (D) Only statement B is true.
- 47 Which of the following is true for a test?
(A) The difference between the averages of the scores of the two groups is real or just a random test to check it.
(B) The difference between the averages of the scores of the two groups is real or just an accidental test to check it.
(C) The difference between the averages of the scores of two or more groups is real or is the only conventional test to check it.
(D) All the above statements are false.
- 48 What are the prerequisites for the test?
(A) The sample should be randomly selected.
(B) The relevant feature should be symmetrically extended to the wider world.
(C) Samples should have uniform mobility.
(D) All the above statements are true.
- 49 What is Vicharan Analysis?
(A) T test (B) F test (C) Test of honor (D) Kyivarg test
- 50 Who was the first to introduce the 30F test?
(A) Donald Fisher (B) Aristotle (C) Morkel (D) Spearman
