

- 1 What is important in any experimental research?
(A) The answer test has to be given. (B) Pre-test has to be given.
(C) The pre-test and the post-test can be given either. (D) Both pre-test and post-test can be given.
- 2 What research method is useful for holistic study of a single person?
(A) Individual study method (B) Survey study method (C) Experimental study method (D) Content study method
- 3 What are accidental sample errors?
(A) The sample is known as the standard of inference. (B) does not arise due to sample selection defects.
(C) arises during data collection work. (D) There is an equal chance of emergence at both ends.
- 4 What is included in the internal review in the historical research method.
(A) Examine the meaning of the content of the context. (B) Internal test
(C) Investigate whether the reference is basic (D) Checking the fidelity and credibility of the reference doer
- 5 What is the benefit of carefully preparing the concept?
(A) The nature of the problem is not clear.(B) Research becomes focused.(C) Research work becomes easier.(D) Statements B and C are true.
- 6 What does HYPOTHESIS mean?
(A) Conception (B) Sample (C) variable (D) Method
- 7 What is 'HYPO' in HYPOTHESIS?
(A) descending than (B) superior to no (C) Statements A and B are both true. (D) Only B is true.
- 8 Which of the types of conjecture is true?
(A) Directional conception (B) Non-directional hypothesis (C) Question form hypothesis (D) All the above statements are true.
- 9 How is the research idea represented?
(A) H1 (B) H (C) H0 (D) None of the above.
- 10 How is zero imagination represented?
(A) H1 (B) H0 (C) H (D) None of the above.
- 11 What is 'VARIABLE'?
(A) variable (B) Conception (C) Wide world (D) Device
- 12 Which of the following is not true? A belief becomes true only when
(A) If it is established experimentally (B) If it is achieved logically (C) If most people accept (D) If it can be re-studied.
- 13 Which of the following is used to collect information in research?
(A) Device (B) Wide world (C) Sample (D) Research method
- 14 What is the conclusion of research results?
(A) Analysis and interpretation of information
(B) Conclusion from the interpretation of information
(C) Extraction of the result from the test of hypothesis
(D) None of the above
- 15 What principles should be kept in mind while planning and implementing research on anthropology as per the guidelines of APA 2000?
(A) Acceptance of personal responsibility and review (B) Capacity limits and institutional approval
(C) Statements A and B are both true. (D) Only A is true
- 16 Which of the following skills should a researcher have for literature review?
(A) Reading skills (B) Notation writing skills (C) (A) and (B) are both true. (D) None of the above
- 17 What works are carried out for the review of reference literature.
(A) Problem determination for review (B) Integration of relevant references
(C) Evaluation of received references (D) All the above statements are true.
- 18 Is the leadership of experimental research method true?
(A) Obtaining information through test (B) To examine the effect of an independent variable on a variable
(C) Fitness (D) Measuring the variable.
- 19 INTERNAL AND EXTERNAL VALIDITY
(A) Internal and external authenticity (B) Internal authenticity
(C) External standardization (D) All the above statements are false.
- 20 Who used the word external authenticity?
(A) Campbell (B) Stanley (C) Statements A and B are both true. (D) All the above statements are false.
- 21 Which noun is used for independent variable?
(A) X (B) Y (C) Statement A is incorrect. (D) Statement B is true.
- 22 What is the term used for the variable variable?
(A) X (B) Y (C) Statement A is true. (D) Statement B is true.
- 23 In how many ways have Cook and Campbell demonstrated experimental realism?
(A)2(B)3 (C)4 (D)5
- 24 Which of the variable types is true?
(A) Independent variable (B) Return variable (C) (A) and (B) are both true. (D) None of the above.
- 25 What other name is given to an independent variable?
(A) Organ factor (B) Mobility (C) (A) and (B) are both false. (D) Only B is true.
- 26 Which of the steps of device design is correct?
(A) Exact specification of the information to be obtained
(B) Formation or aggregation of clauses
(C) (A) and (B) are both true.
(D) None of the above

- 27 Which of the stages of a person's study is true?
 (A) Identify the event or unit for research and determine its status.
 (B) Collection, testing and checking of history related to the incident.
 (C) (A) and (B) are both true.
 (D) None of the above
- 28 Which of the following questions is true for assessment while studying?
 (A) Are any serious details excluded from the information?
 (B) Is more than one method used in data collection?
 (C) (A) and (B) are both true.
 (D) None of the above
- 29 John W. Best (150) has determined the objectives of the documentary survey.
 (A)7(B)5 (C)8 (D)9
- 30 What is experimental research called in English?
 (A) Descriptive Research (B) Educational Research (C) Experimental Research (D) Historical Research
- 31 What is functional research?
 (A) Teacher research (B) Classroom research (C) Activist research (D) All the above statements are true.
- 32 Which of the following is true for any research?
 (A) Problem selection (B) Problem handling process
 (C) Statements A and B are true (D) Only statement A is true.
- 33 State the full name of APA.
 (A) American Psychological Associate (B) American Psychological Association
 (C) American Psychologic Association (D) American Psychologian Association
- 34 Which of the following institutes gives grants for research?
 (A) UGC (B) ICSSR (C) NCERT (D) All the above statements are true.
- 35 In qualitative research, the analysis of information depends on what.
 (A) Inductive approach (B) Corporate approach (C) Statistical approach (D) All the above statements are true.
- 36 Which of the following types of research is correct?
 (A) Basic research (B) Applied research (C) Functional research (D) All the above statements are true.
- 37 What is numerical research called in English?
 (A) Quantitative Research (B) Qualitative Research (C) Applied Research (D) Basic Research
- 38 Which of the following is true for practical research?
 (A) A field problem can be solved. (B) A principle can be tested.
 (C) Only A is true. (D) Statements A and B are both true.
- 39 What is historical research?
 (A) If the research problem is in the context of an event that happened in the past
 (B) The research problem is not in the context of an event that occurred in the past
 (C) If the research problem is in the context of a past occurrence
 (D) If the research problem is not in the context of a past occurrence
- 40 Which of the following types of research is correct based on objectives?
 (A) Descriptive research (B) Comparative research
 (C) Evaluation research. (D) All the above statements are true.
- 41 According to Van Dylan, how many types of vertical studies are there?
 (A)2(B) 1 (C)3 (D)4
- 42 What is cross-sectional study?
 (A) Study of different preachers corresponding to different times
 (B) Timely study of various preachers
 (C) A study of different preachers not suited to different times
 (D) Only statement B is true.
- 43 Which of the functions of the experimental method is true in research?
 (A) Control (B) Regulation (C) Observation (D) All the above statements are true.
- 44 Which of the steps of the experimental method is correct?
 (A) Planning the experiment (B) Implementation of the experiment
 (C) Reporting of results (D) All the above statements are true.
- 45 Which of the methods of control for controlling variables in research is correct?
 (A) Physical control (B) Selective control
 (C) Numerological control (D) All the above statements are true.
- 46 Which of the following types of surveys is true?
 (A) Referendum survey (B) Social Survey
 (C) (A) and (B) are both true (D) None of the above
- 47 Which of the relational studies is true?
 (A) Individual study (B) Causal comparative study (C) (A) and (B) are both true (D) None of the above
- 48 What kind of research is considered as person study.
 (A) Experimental type of research (B) Qualitative type of research (C) (A) and (B) are both true (D) None of the above
- 49 What is causal study called in English?
 (A) CAUSAL-COMPARATIVE STUDY (B) EXPOST-FACTO RESEARCH
 (C) (A) and (B) are both true (D) None of the above
- 50 Which of the steps of comparative study is correct?
 (A) Research problem statement (B) Group selection
 (C) Selection of comparable groups (D) All the above statements are true.
