Selina Class 8 ICSE Solutions Physics :

Chapter 5- Light Energy

Class 8: Physics Chapter 5 solutions. Complete Class 8 Physics Chapter 5 Notes.

Selina Class 8 ICSE Solutions Physics : Chapter 5- Light Energy

Selina 8th Physics Chapter 5, Class 8 Physics Chapter 5 solutions

A. Objective Questions

1. Write true or false for each statement

(a) Water is optically denser than glass.

Solution: False.

(b) A ray of light when passes from glass to air, bends towards the normal.

Solution: False.

(c) The speed of light is more in glass than in water.

Solution: False.

(d) The depth of a pond, when seen from above, appears to be less.

Solution: True.

(e) Light travels at a lower speed in water than in air.

Solution: True.

(f) Light travels in the same straight line path while passing through different media.

Solution: False.

<https://www.indcareer.com/schools/selina-class-8-icse-solutions-physics-chapter-5-light-energy/>

(g) The angle formed between the normal and the refracted ray is known as the angle of incidence.

Solution: False.

(h) At the point of incidence, a line drawn at right angles to the surface, separating the two media, is called the normal.

Solution: True.

(i) Image is formed by a mirror due to refraction of light.

Solution: False.

(j) Rays of light incident parallel to the principal axis pass through the focus after reflection from a concave

Solution: True.

(k) A convex mirror is used as a shaving mirror.

Solution: False.

(l) The focal length of a convex mirror is equal to its radius of curvature.

Solution: False.

(m) A concave mirror converges the light-rays, but a convex mirror diverges the mirror.

Solution: True.

Question 2.

Fill in the blanks

(a) Water is optically **denser** than air.

(b) Air is optically **rarer** than glass.

(c) When a ray of light travels from water to air, it bends **away from** the normal.

(d) When a ray of light travels from air to glass, it bends **towards** the normal.

(e) When white light passes through a prism, it **disperses**

<https://www.indcareer.com/schools/selina-class-8-icse-solutions-physics-chapter-5-light-energy/>

- (f) The splitting of white light into its constituent colours is called **dispersion**.
- (g) A **concave** mirror is obtained on silvering the outer surface of a part of a hollow glass sphere.
- (h) Radius of curvature of a spherical mirror is **two times** its focal length.
- (i) The angle of incidence for a ray of light passing the centre of curvature of a spherical mirror is **0°**
- (j) A **convex** mirror always forms a virtual image.
- (k) A concave mirror forms a virtual image for an object placed **between pole and focus**.

Question 3.

Match the following:

Column A

- (a) White light
- (b) Refraction
- (c) Virtual images
- (d) Real images
- (e) Prism

Column B.

- (i) convex mirror
- (ii) concave mirror
- (iii) refraction
- (iv) spectrum
- (v) ray of light from glass to air

Solution:

Column A

- (a) White light
- (b) Refraction
- (c) Virtual images
- (d) Real images
- (e) Prism

Column B.

- (iv) spectrum
- (v) ray of light from glass to air
- (i) convex mirror
- (ii) concave mirror
- (iii) refraction

Question 4.

<https://www.indcareer.com/schools/selina-class-8-icse-solutions-physics-chapter-5-light-energy/>

Select the correct alternative

(a) The speed of light in air or vacuum is

1. $3 \times 10^8 \text{ m/s}$
2. $2.25 \times 10^8 \text{ m/s}$
3. 332 m/s
4. $2.0 \times 10^8 \text{ m/s}$

Answer: The correct answer is 1. $3 \times 10^8 \text{ m/s}$

(b) A ray of light moving from an optically rarer to a denser medium

1. bends away from the normal
2. bends towards the normal
3. remains undeviated
4. none of the above

Answer: The correct answer is 2. bends towards the normal

(c) The angle between the normal and refracted ray is called

1. angle of deviation
2. angle of incidence
3. angle of refraction
4. angle of emergence.

Answer: The correct answer is 3. angle of refraction

(d) The property of splitting of white light into its seven constituent colours is known as

1. rectilinear propagation
2. refraction
3. reflection

<https://www.indcareer.com/schools/selina-class-8-icse-solutions-physics-chapter-5-light-energy/>

4. dispersion

Answer: The correct answer is 4. dispersion

(e) The seven colours in the spectrum of sunlight in order, are represented as:

1. VIBGYOR

2. VIGYBOR

3. BIVGYOR

4. RYOBIVG

Answer: The correct answer is 1. VIBGYOR

(f) A ray of light passing through the centre of curvature of a spherical mirror, after reflection

1. passes through the focus

2. passes through the pole

3. becomes parallel to the principal axis

4. retraces its own path.

Answer: The correct answer is 4. retraces its own path.

(g) If the radius of curvature of a concave mirror is 20 cm its focal length is:

1. 10 cm

2. 20 cm

3. 40 cm

4. 80 cm

Answer: The correct answer is 1. 10 cm

(h) The image formed by a convex mirror is

1. erect and diminished

2. erect and diminished

<https://www.indcareer.com/schools/selina-class-8-icse-solutions-physics-chapter-5-light-energy/>

3. inverted and diminished

4. inverted and enlarged.

Answer: The correct answer is 1. erect and diminished

(i) The image formed by a concave mirror is of the same size as the object, if the object is placed

1. at the focus

2. between the pole and focus

3. between the focus and centre of curvature

4. at the centre of curvature

Answer: The correct answer is 4. at the centre of curvature

(j) A convex mirror is used

1. as a shaving mirror

2. as a head mirror by a dentist

3. as a rearview mirror by a driver

4. as a reflector in the torch.

Answer: The correct answer is 3. as a rearview mirror by a driver

Selina Publishers ICSE Solutions

Class 8 Physics

- Chapter 1- Matter
- Chapter 2- Physical Quantities and Measurement
- Chapter 3- Force and Pressure
- Chapter 4- Energy
- Chapter 5- Light Energy
- Chapter 6- Heat Transfer
- Chapter 7- Sound
- Chapter 8- Electricity

About About Selina Publishers ICSE

Selina Publishers has been serving the students since 1976 and is one of the quality ICSE school textbooks publication houses. Mathematics and Science books for classes 6-10 form the core of our business, apart from certain English and Hindi literature as well as a few primary books. All these books are based upon the syllabus published by the Council for the I.C.S.E. Examinations, New Delhi. The textbooks are composed by a panel of subject experts and vetted by teachers practising in ICSE schools all over the country. Continuous efforts are made in complying with the standards and ensuring lucidity and clarity in content, which makes them stand tall in the industry.

About IndCareer

IndCareer.com is a leading developer of online career guidance resources for the Indian marketplace. Established in 2007, IndCareer.com is currently used by over thousands of institutions across India, including schools, employment agencies, libraries, colleges and universities.

IndCareer.com is designed to assist you in making the right career decision - a decision that meets your unique interests and personality.
