HOLIDAY HOMEWORK

Useful Tips

Some days it is very difficult to concentrate. You may just not be in the mood to study or maybe it is a certain topic that you have difficulty concentrating on. Whatever the reason, there are some steps you can take to help you concentrate.

- If you keep having the urge to get a snack, then get it first, before you start studying. That is the only snack you get until you're done. You'd be amazed at how much time you can waste going back and forth to the fridge.
- Remove any other distractions. Turn off the T.V, go into another room if people are talking. Do not take any phone calls until you are through.
- Try to do your homework early in the day. If you wait until just before bedtime then your brain will be tired out at the end of the day.
- Finally, don't procrastinate. Your homework won't get done by itself, so you may as well make up your mind to sit down and do it. Once you're done, you'll be free to get on with other things.

1. PARAGRAPH WRITING

Write a paragraph of about 80 words on the following topics:

Group 1-A school of my dreams.
