**Unit – I (Reading)**

**1. Read the passage and answer the questions that follow:**

Character and knowledge are the heart and soul of an individual. Character is the set of inherited and acquired qualities, which defines an individual's identity and makes him different from others. One acquires knowledge over the time through formal and informal education. The formal education is acquired from schools and educational institutions. The informal is acquired through family, friends, peer groups and social circle.

Education empowers an individual and enables him to make rational decisions. Each individual is blessed with some or the other talent and is a bundle of untapped potential. This is why education has an important role. It helps an individual to make the best use of his talent and capacities. Education cannot be restricted to an individual's personal growth. He may inspire others to learn and act as a role model for many. In fact, a society's progress can be measured in terms of the number of educated individuals. The knowledge and expertise gained by the person during the course of his education must be used for the benefits of others and society. An educated person with strong moral values is an asset to the society and nation.

The moral values lay down the foundation of a strong character. A person with poor moral values may attain his short term goals easily but it will be difficult for him to accomplish his long term goals.

- a. What is character? **1**
- b. Mention the difference between formal and informal education. **1**
- c. How does education help an individual? **1**
- d. What should an educated person do? **1**
- e. How can a society's progress be measured? **1**

**2. Read the poem and answer the questions that follow:**

Be glad your nose is on your face,  
not pasted on some other place,

for if it were where it is not,  
you might dislike your nose a lot.

Imagine if your precious nose  
were sandwiched in between your toes,  
that clearly would not be a treat,  
for you'd be forced to smell your feet.

Your nose would be source of dread  
were it attached atop your head,  
it soon would drive you to despair,  
forever tickled by your hair.

Within your ear, your nose would be  
an absolute catastrophe,  
for when you were obliged to sneeze,  
your brain would rattle the breeze.

Your nose, instead, through thick and thin,  
remains between your eyes and chin,  
not pasted on some other place-  
be glad your nose is on your face! (*Jack Prelutsky*)
