General Instructions:

1. The Marking scheme provides general guidelines to reduce subjectivity in the marking. The answers given in the Marking Scheme are suggested answers. The content is thus indicative. If a student has given any other answer which is different from the one given in the Marking Scheme but conveys the meaning, such answers should be given due weightage.
2. Evaluation is to be done as per instructions provided in the Marking Scheme. It should not be done according to one's own interpretation or any other consideration. Marking Scheme should be strictly adhered to and religiously followed.
3. If a question has parts, please award marks in the right hand side for each part. Marks awarded for different parts of the question should then be totalled up and written in the left margin and encircled.
4. If a question does not have any parts, marks be awarded in the left-hand margin.
5. If a child has attempted an extra choice question, answer of the question deserving more marks should be retained and the other answer scored out.

9. Reference to the page number of the prescribed text books has been given for various questions. This is for the information of the examiners and a reading of these pages of the text books may be useful in assessing the answer scripts.
