Question-1

What are the main objectives of Search and Rescue team? Define the team composition.

Solution:

The main objective of a Search and Rescue Team is to rescue trapped survivors of a disaster. Then first –aid should be provided to the injured people. After first –aid is given further medical help should be arranged.

In the event of any deaths during the disaster, the team should ensure the immediate disposal of the bodies as this may cause health hazards for the others.

The Rescue team should seek help from the other people in the area as this would speed up the rescue operations.

Rescue operations are usually organised as a team work. Team effort is the back bone of Rescue operations. There should be cooperation among members of a Search and rescue team. Some of the qualities the Rescue team should have are:

Emotional Balance

Professionalism

Sound Physique

Ability to deal with emergencies

Willingness to work at any time

Honesty.

About NCERT

The National Council of Educational Research and Training is an autonomous organization of the Government of India which was established in 1961 as a literary, scientific, and charitable Society under the Societies Registration Act. The major objectives of NCERT and its constituent units are to: undertake, promote and coordinate research in areas related to school education; prepare and publish model textbooks, supplementary material, newsletters, journals and develop educational kits, multimedia digital materials, etc. Organise pre-service and in-service training of teachers; develop and disseminate innovative educational techniques and practices; collaborate and network with state educational departments, universities, NGOs and other educational institutions; act as a clearing house for ideas and information in matters related to school education; and act as a nodal agency for achieving the goals of Universalisation of Elementary Education. In addition to research, development, training, extension, publication and dissemination activities, NCERT is an implementation agency for bilateral cultural exchange programmes with other countries in the field of school education. Its headquarters are located at Sri Aurobindo Marg in New Delhi. [Visit the Official NCERT website](#) to learn more.
