NCERT 3rd Environmental Studies Chapter 3, class 3 Environmental Studies Chapter 3 solutions

Water—More or Less

1. Arrange the following on the basis of the amount of water that is needed for each of the activities. Begin with the activity that needs the most water.

Activities—to bathe, to drink, to clean the house, to water the fields, to knead the dough.

1. _____ 2. _____ 3. _____

4. _____ 5. _____

Ans. 1. To water the fields 2. To clean the house 3. To bathe 4. To knead the dough 5. To drink.

Water—From Where?

1. In the poem you read about rivers, waterfalls, lakes and wells. We get water from all these places. From where do you get water? Put a 0 around those places that are either in your house or around it. lake, well, tubewell, pond, waterfall, hand pump, river, stream, tap, tank, sea, hot water spring.

Ans.

2. Have you seen hot water coming out of the ground? Where?

Ans. Yes, in Manikarnika Ghat.

3. Does any river flow through your village or city? If yes, write its name.

Ans. The river Yamuna passes through my city.

<https://www.indcareer.com/schools/ncert-solutions-for-3rd-class-environmental-studies-chapter-3-water-o-water/>

4. Do you know the names of any rivers? Write their names.

Ans. Names of some rivers are as follows:

Yamuna, Ganga, Godavari, Sutlej, Chenab, Mahanadi, Brahmaputra, etc.

5. At home, where do you get drinking water from?

Ans. At home, I get drinking water from the pipeline.

6. Do you have to go far to get water? How much time does it take to bring the water?

Ans. Water comes to my home through pipelines. So we do not need to go far to get water. Sometimes, during summers we need to call the water tanker. I have heard that in some villages people need to go several miles to get water.

7. Do your neighbours bring water from the same place?

Ans. Yes, the whole colony gets water supply from the Jal Board pipelines.

8. Are there certain people who are not allowed to take water from there?

Ans. No, there is no such person.

9. Why do we need to store water?

Ans. Water is stored so that it can be used if water supply is not available.

10. Who fetches and stores water in your house?

Ans. My parents look after it but sometimes I also help.

About NCERT

The National Council of Educational Research and Training is an autonomous organization of the Government of India which was established in 1961 as a literary, scientific, and charitable Society under the Societies Registration Act. The major objectives of NCERT and its constituent units are to: undertake, promote and coordinate research in areas related to school education; prepare and publish model textbooks, supplementary material, newsletters, journals and develop educational kits, multimedia digital materials, etc. Organise pre-service and in-service training of teachers; develop and disseminate innovative educational techniques and practices; collaborate and network with state educational departments, universities, NGOs and other educational institutions; act as a clearing house for ideas and information in matters related to school education; and act as a nodal agency for achieving the goals of Universalisation of Elementary Education. In addition to research, development, training, extension, publication and dissemination activities, NCERT is an implementation agency for bilateral cultural exchange programmes with other countries in the field of school education. Its headquarters are located at Sri Aurobindo Marg in New Delhi. [Visit the Official NCERT website](https://www.ncert.nic.in/) to learn more.
