1. What was the difference in the scene that Omana saw from the train on the first day and on the second day?

Ans. On the first day of journey Omana saw the fields were dry and brown, but on the second day of her journey he saw fields with red soil, and hills covered with trees.

2. Omana saw many kinds of vehicles at the level-crossing. Which of them run on diesel or petrol?

Ans. Buses, trucks and a few cars run on diesel while scooters, cars, motor cycles etc. run on petrol.

3. Why was there so much smoke and noise from the vehicles at the level crossing?

Ans. Because some people did not switch off the engine of their vehicles even while waiting at the railway crossing.

4. Have you ever seen a scene like the one Omana saw in Goa? Describe it.

Ans. Yes, when we go to Nainital from Delhi, the areas on both sides of the highway are lush green. The terrain is plain and very pleasing. When one crosses the Yamuna or the Ganga, it appears as if there is water only for miles and miles.

5. Sometimes people cross the railway tracks even when the crossing is closed. What do you feel about this?

Ans. People should not cross the railway tracks while the crossing is closed. It may be fatal. No one should take such a risk.

PAGE NO. 56

1. Have you seen any bridges? Where?

Ans. Yes, I have seen several bridges, while going to Delhi by train.

2. Have you ever crossed a bridge? Where?

Ans. I have crossed many bridges. There comes a bridge over the river Ganges at Allahabad.

3. What was the bridge built over?

Ans. The bridge was built over the river Ganges.

4. What did you see below the bridge?

Ans. I saw water and some boats below the bridge.

5. Find out why bridges are made.

Ans. Bridges are made for people and their vehicles to cross the river.

PAGE NO. 57-58

1. Have you ever been through a tunnel? How did you feel?

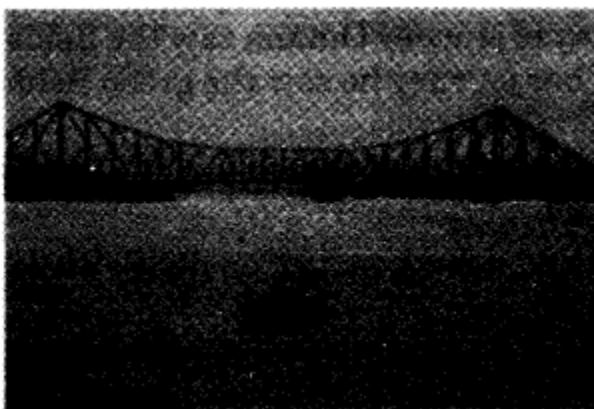

Ans. Yes, I have been through a tunnel. In the beginning I used to feel nervous but not anymore because I know it is all safe.

2. The route from Goa to Kerala has a total of 2000 bridges and 92 tunnels! Why do you think there are so many bridges and tunnels?

Ans. In the route of Goa to Kerala the train has to pass through sea coast, many water bodies and hills. So, to cross them there are so many bridges and tunnels.

3. Imagine and draw in your notebook what Omana saw under the bridge when her train crossed it?

Ans. Omana saw water under the bridge. There were some boats and fisherman also.

About NCERT

The National Council of Educational Research and Training is an autonomous organization of the Government of India which was established in 1961 as a literary, scientific, and charitable Society under the Societies Registration Act. The major objectives of NCERT and its constituent units are to: undertake, promote and coordinate research in areas related to school education; prepare and publish model textbooks, supplementary material, newsletters, journals and develop educational kits, multimedia digital materials, etc. Organise pre-service and in-service training of teachers; develop and disseminate innovative educational techniques and practices; collaborate and network with state educational departments, universities, NGOs and other educational institutions; act as a clearing house for ideas and information in matters related to school education; and act as a nodal agency for achieving the goals of Universalisation of Elementary Education. In addition to research, development, training, extension, publication and dissemination activities, NCERT is an implementation agency for bilateral cultural exchange programmes with other countries in the field of school education. Its headquarters are located at Sri Aurobindo Marg in New Delhi. [Visit the Official NCERT website](https://www.ncert.nic.in/) to learn more.
