Working with the Text

1. Name some stick-and-ball games that you have witnessed or heard of.

Answer

Hockey, Cricket, Baseball, Polo, Billiards are the few games.

2. The Parsis were the first Indian community to take to cricket. Why?

Answer

The Parsis were the first Indian community to take to cricket as they were in close contact with the British because of their interest in trade and the first Indian community to westernise.

3. The rivalry between the Parsis and the Bombay Gymkhana had a happy ending for the former. What does 'a happy ending' refer to?

Answer

The 'happy ending' refers to the victory of a Parsis team over the Bombay Gymkhana in a game of cricket in 1889, just four years after the foundation of the Indian National Congress in 1885.

4. Do you think cricket owes its present popularity to television? Justify your answer.

<https://www.indcareer.com/schools/ncert-solutions-for-7th-class-english-chapter-10-the-story-of-cricket/>

Answer

Definitely, cricket owes its present popularity to television. It helps in expansion of its audience as well as popularity to different countries and even in small towns and villages by broadcasting services. Matches played at one place can be viewed worldwide which resulted in its popularity as well as finance.

5. Why has cricket a large viewership in India, not in China or Russia?**Answer**

Cricket is popular mostly in the colonial countries of British empire not the sovereign countries. India was only the part of the British empire not the China or Russia. Therefore, Cricket has large viewership in India, not in China or Russia. Moreover, TV companies have created a global market for cricket in India.

6. What do you understand by the game's (cricket) 'equipment'?**Answer**

The things which are necessary for playing the game are game's (cricket) 'equipment'. Like in cricket, ball, bat, wicket, helmets, gloves, pads are the requires things to play the match.

7. How is Test cricket a unique game in many ways?**Answer**

Test Game is Unique in the sense that even though it is played for five days, It ends in a draw. No other modern team sport takes even half as much time to complete.

8. How is cricket different from other team games?**Answer**

Cricket is different from other team games because it goes on for a longer time than any other games. It also has different formats like Test Cricket, One-day International and T-20 match and each game takes different time to get completed. Another a strange

<https://www.indcareer.com/schools/ncert-solutions-for-7th-class-english-chapter-10-the-story-of-cricket/>

feature of Cricket is the play ground that it can be of any size, only the length of the pitch is specified while in other games the dimensions of the playing area is specified.

9. How have advances in technology affected the game of cricket?

Answer

After the advancement of technology, players started wearing more protective equipment. The invention of vulcanized rubber made possible the use of pads. Satellites helped in increasing the popularity and audience of cricket. One can now watch live matches while sitting at home. Technology also helped in taking fair decisions while playing the game.

10. Explain how cricket changed with changing times and yet remained unchanged in some ways.

Answer

With the change of time, technology get more advanced and players started wearing protective equipment. Earlier the bat was made of one piece, today it has a separate blade and handle. Decisions became more fair with motion sensor cameras. But still, both bat and ball are handmade, not industrially manufactured.

About NCERT

The National Council of Educational Research and Training is an autonomous organization of the Government of India which was established in 1961 as a literary, scientific, and charitable Society under the Societies Registration Act. The major objectives of NCERT and its constituent units are to: undertake, promote and coordinate research in areas related to school education; prepare and publish model textbooks, supplementary material, newsletters, journals and develop educational kits, multimedia digital materials, etc. Organise pre-service and in-service training of teachers; develop and disseminate innovative educational techniques and practices; collaborate and network with state educational departments, universities, NGOs and other educational institutions; act as a clearing house for ideas and information in matters related to school education; and act as a nodal agency for achieving the goals of Universalisation of Elementary Education. In addition to research, development, training, extension, publication and dissemination activities, NCERT is an implementation agency for bilateral cultural exchange programmes with other countries in the field of school education. Its headquarters are located at Sri Aurobindo Marg in New Delhi. [Visit the Official NCERT website](https://www.ncert.nic.in/) to learn more.
