2. Tick the correct answer.

(i) Which is not a natural ecosystem?

(a) Desert

(b) Aquarium

(c) Forest

✓ (b) Aquarium

(ii) Which is not a component of human environment?

(a) Land

(b) Religion

(c) Community

✓ (a) Land

(iii) Which is a human made environment?

(a) Mountain

(b) Sea

(c) Road

<https://www.indcareer.com/schools/ncert-solutions-for-7th-class-geography-chapter-1-environment/>

✓ (c) Road

(iv) Which is a threat to environment?

(a) Growing plant

(b) Growing population

(c) Growing crops

✓ (b) Growing population

3. Match the following.

- | | |
|-------------------|-----------------------------------------------------------|
| (i) Biosphere | (a) blanket of air which surrounds the earth |
| (ii) Atmosphere | (b) domain of water |
| (iii) Hydrosphere | (c) gravitational force of the earth |
| (iv) Environment | (d) our surroundings |
| - | (e) narrow zone where land water and air interact |
| - | (f) relation between the organisms and their surroundings |

Answer

- | | |
|-------------------|---------------------------------------------------|
| (i) Biosphere | (e) narrow zone where land water and air interact |
| (ii) Atmosphere | (a) blanket of air which surrounds the earth |
| (iii) Hydrosphere | (b) domain of water |
| (iv) Environment | (d) our surroundings |

4. Give reasons.

<https://www.indcareer.com/schools/ncert-solutions-for-7th-class-geography-chapter-1-environment/>

(i) Man modifies his environment

(ii) Plants and animals depend on each other

Answer

(i) Man modifies his environment because they are capable of modifying it according to their need and live comfortable life. Humans learn new ways to use and change environment and invented many things. Industrial revolution enabled large scale production. Transportation became faster. Information revolution made communication easier and speedy across the world.

(ii) Plants and animals depend on each other for their sustainability. Animals consume plants as they are the only producers and also take oxygen from them. Plants are dependent on animals as they give out carbon dioxide which is important for photosynthesis. Also, dead remains of animals provide nutrients to the plants.

About NCERT

The National Council of Educational Research and Training is an autonomous organization of the Government of India which was established in 1961 as a literary, scientific, and charitable Society under the Societies Registration Act. The major objectives of NCERT and its constituent units are to: undertake, promote and coordinate research in areas related to school education; prepare and publish model textbooks, supplementary material, newsletters, journals and develop educational kits, multimedia digital materials, etc. Organise pre-service and in-service training of teachers; develop and disseminate innovative educational techniques and practices; collaborate and network with state educational departments, universities, NGOs and other educational institutions; act as a clearing house for ideas and information in matters related to school education; and act as a nodal agency for achieving the goals of Universalisation of Elementary Education. In addition to research, development, training, extension, publication and dissemination activities, NCERT is an implementation agency for bilateral cultural exchange programmes with other countries in the field of school education. Its headquarters are located at Sri Aurobindo Marg in New Delhi. [Visit the Official NCERT website](https://www.ncert.nic.in/) to learn more.
