| (v) Kaziranga      | (a) Assam         |

NCERT 7th Geography Chapter 8, class 7 Geography Chapter 8 solutions

### 4. Give reasons.

(i) The rainforests are depleting.

(ii) Paddy is grown in the Ganga-Brahmaputra plains.

<https://www.indcareer.com/schools/ncert-solutions-for-7th-class-geography-chapter-8-human-environment-interactions-the-tropical-and-the-subtropical-region/>

## Answer

(i) The rainforests are depleting due to following reasons:

→ The indigenous population was pushed out for the developmental activities which is leading to the the destruction of the rainforests.

→ Large scale deforestation for construction of roads, industries and houses.

→ For getting wood from forests in order to increase economical profit.

(ii) Paddy is grown in the Ganga-Brahmaputra plains the availability of sufficient amount of water in this area.

Paddy requires fertile alluvial soil and much water to grow which is easily available in this plain. The rainfall and temperature also support the growth of paddy.

NCERT 7th Geography Chapter 8, class 7 Geography Chapter 8 solutions

## 5. Map skills.

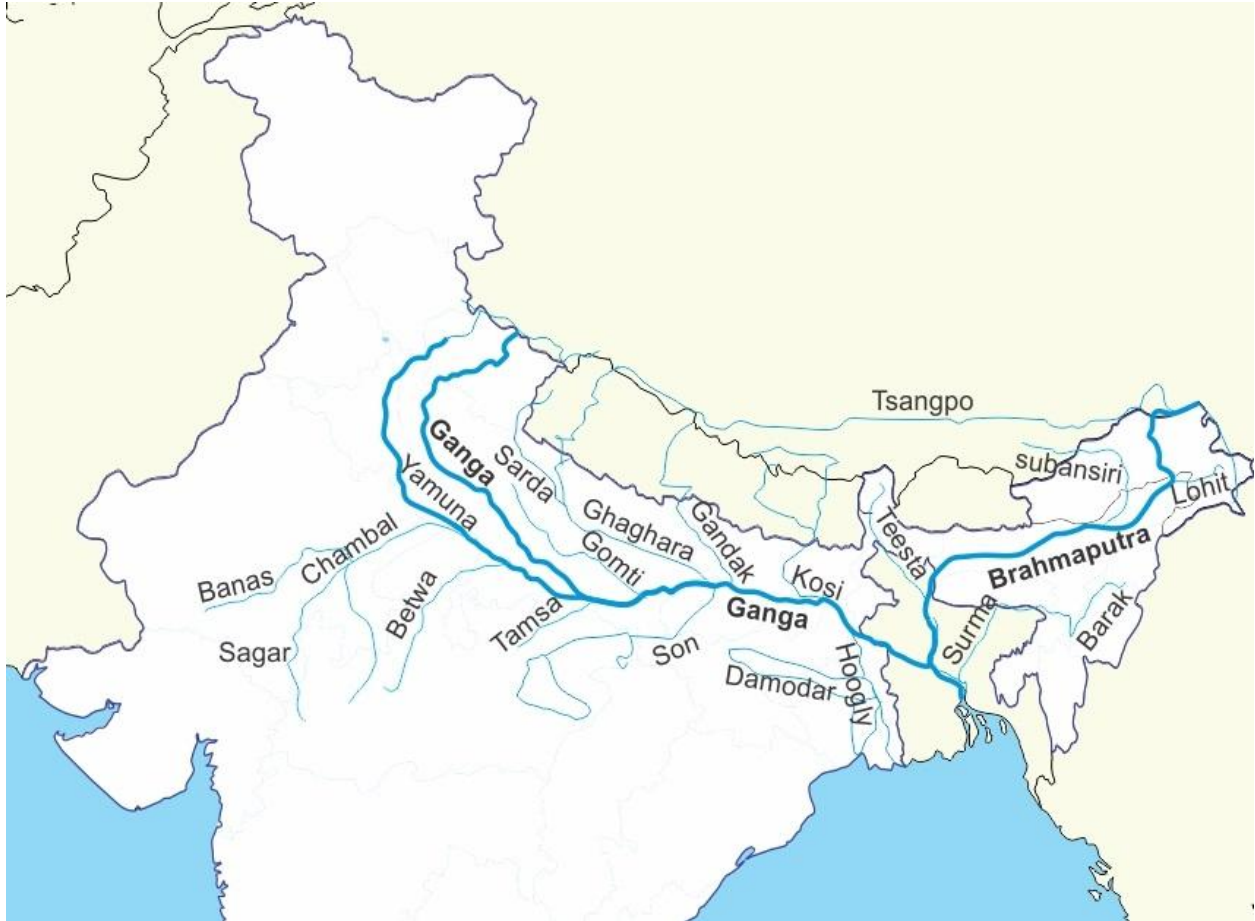

**(i) On an outline map of the Indian Sub-continent, draw the rivers Ganga and Brahmaputra from the source to the mouth. Also show the important tributaries of both the rivers.**

**(ii) On the political map of South America, draw the equator. Mark the countries through which the equator passes.**

## Answer

# About NCERT

The National Council of Educational Research and Training is an autonomous organization of the Government of India which was established in 1961 as a literary, scientific, and charitable Society under the Societies Registration Act. The major objectives of NCERT and its constituent units are to: undertake, promote and coordinate research in areas related to school education; prepare and publish model textbooks, supplementary material, newsletters, journals and develop educational kits, multimedia digital materials, etc. Organise pre-service and in-service training of teachers; develop and disseminate innovative educational techniques and practices; collaborate and network with state educational departments, universities, NGOs and other educational institutions; act as a clearing house for ideas and information in matters related to school education; and act as a nodal agency for achieving the goals of Universalisation of Elementary Education. In addition to research, development, training, extension, publication and dissemination activities, NCERT is an implementation agency for bilateral cultural exchange programmes with other countries in the field of school education. Its headquarters are located at Sri Aurobindo Marg in New Delhi. [Visit the Official NCERT website](#) to learn more.
